AN OPEN LETTER TO PRESIDENT GLORIA MACAPAGAL-ARROYO

Dear Madam President:

We, the concerned organizations and individuals working for children's rights and welfare, strongly appeal for the reauthorization of the implementation of Executive Order (EO) 778 that would transfer the functions of the Council for the Welfare of Children (CWC) to the National Early Childhood Care and Development Council (National ECCDC Council) and to the Department of Social Welfare and Development (DSWD).

Separating the functions of CWC between the newly created National ECCDC Council and the DSWD, an agency faced with the Herculean task of implementing the various social welfare programs of government, would endanger the gains that the Philippines over the last 20 years in addressing children's rights and welfare. EO 778 would effectively perpetuate the mandates and functions of CWC as provided for in various Philippine laws and executive issuances, insuring the country's commitment to the United Nations Convention on the Rights of the Child (UNCRC).

The CWC has been in the forefront of coordinating the formulation of the National Strategic Frameworks on Plan Development for Children (Child PT), National Strategic Framework on Children's Participation and the National Strategic Plan of Action on Violence against Children. Through its advocacy, Philippine laws and national policies were harmonized with the UNCRC, which resulted in the enactment of RA 9262 (An Act Providing for Stronger (Interference and) Special Protection against Child Abuse, Exploitation and Discrimination), RA 9261 (An Act Providing for the Elimination of the Worst Forms of Child Labor and Addressing Stronger Protection for the Working Child), RA 9264 (Anti-Trafficking in Persons Act), and RA 9344 (Juvenile Justice and Delinquency Act), among others.

Our country's numerous concerns on children (trafficking, prostitution, abuse, hazardous labor, among others) need to be addressed effectively and decisively. Strengthening the functions of CWC between the National ECCDC Council and DSWD is a step in the wrong direction as the sure course to the indivisibility and integrated relationship of all the rights of children.

With the global economic crisis hitting the country over the long haul, we have to conserve scarce resources. What is needed is to strengthen the role of the CWC. This is in accordance with the Concluding Observations of the United Nations Committee on the Rights of the Child that recommended to the Philippine government to provide the CWC with the necessary resources for the monitoring, evaluation and implementation of child-related laws.

Mr. President, we implore for appeal, please rescind EO 778 and preserve the integrity and mandate of CWC. In the end, it is the best interest of the Filipino children that is at stake here.

Learn everything kids need for a kid's game

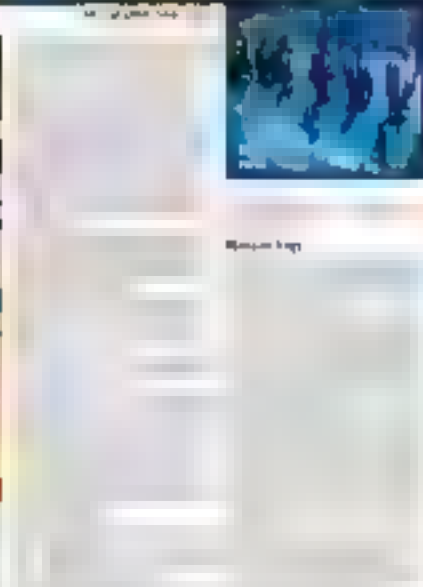

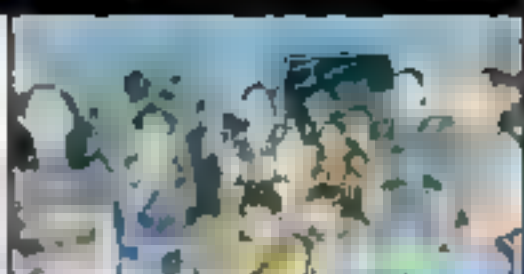

By Pam Farrow
Pam Farrow is a writer.

When it comes to the game of life, the rules are simple. You have to play. You have to learn. You have to grow. You have to love. You have to live. You have to die. You have to be a kid.

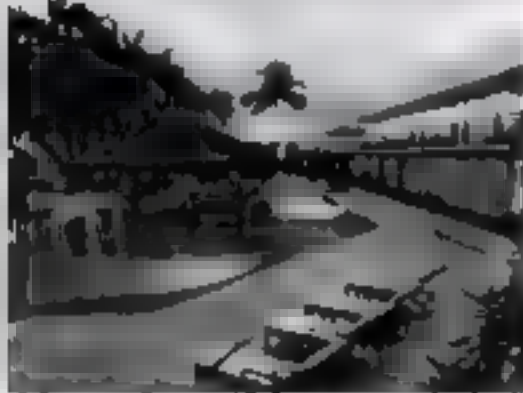

LEARNING is the key to the game of life. It is the only way to win. It is the only way to be a kid.

There are many ways to make a good impression. One way is to be a good listener. When you are talking to someone, listen to what they are saying. Don't interrupt them. Show that you are interested in what they have to say. This will make them feel valued and respected. Another way to make a good impression is to be a good speaker. When you are talking to someone, speak clearly and confidently. Don't talk too fast or too slow. Use good grammar and punctuation. This will make you sound more professional and knowledgeable. Finally, make a good impression by being a good person. Be kind, honest, and respectful to everyone you meet. This will make you a person that others want to be around.

the 1990s, the number of people who have been infected with HIV has increased significantly. In 1990, there were about 1 million people living with HIV in the United States. By 2000, that number had risen to about 4 million. And in 2008, it was estimated that there were over 12 million people living with HIV in the United States. This increase in the number of people living with HIV is due to a number of factors, including the fact that HIV is now a chronic condition that can be managed with medication, and the fact that there are now more people who are aware of the risks of HIV and are taking steps to protect themselves.

It was the beautiful island that drew me to the bay. The weather was perfect, the water was crystal clear, and the sun was shining brightly. I had heard that the island was a hidden gem, and I was not disappointed. The view was absolutely stunning, and the people were so friendly.
